Against Saloons.

A PETITION BEING CIRCULATED

A Movement to Drive the Rum Power
From Our Neighbor—Was Given a Good
Start Saturday Night—The Asbury Brother-
hood Present as a Body.

Wellsville is aflame with the desire to get rid of the curse which now disgraces it in the shape of saloons, originators, projectors and consummators of a mass of evil which is simply indescribable, and which the better class of citizens have found unendurable, especially in the light of the fact that the liquor element contemplates placing three more saloons within the city limits.

Some time since there was started an organization known as the Asbury Brotherhood, composed of men who advocate clean life and the downfall of the liquor curse and traffic. The society has grown rapidly and has now four hundred members, with new ones constantly being added. The outlook is that the society will be a power in city politics, backed as it is by the Woman's Christian Temperance union, kindred temperance organizations, and a mass of good citizens who belong to no societies, but who are weary of the disgrace brought upon the city by the liquor element.

When Evangelist Naylor was conducting his meetings here, he stated that a practical movement should be started at once, and work, not mere talk, should rule, and that he was willing to help at any time. One of the leaders of the Woman's Christian Temperance union took him at his word and commenced to hustle in earnest, backed by the good women whom she interviewed and interested, and the matter resulted in an invitation to Evangelist Naylor to address the Asbury Brotherhood, and citizens in general, on Saturday night last, at city hall. The center seats were reserved for the Brotherhood, and they were filled to their utmost capacity, while every other seat in the hall was occupied by citizens, and standing room was in demand, many persons being unable to obtain admission.

A fine choir was in attendance and rendered several selections in a very pleasing manner. Rev. W. H. Gamestfelder, of the Evangelical church, led in prayer. Reverend Rager, of the Methodist Episcopal church, introduced Evangelist Naylor in a well-timed and happy speech, asking God's blessing upon the orator of the evening and upon a successful onslaught against the curse of the nation, the sale of intoxicants as a beverage.

The NEWS REVIEW had a correspondent on hand and secured Reverend Naylor's entire speech, but space forbids its publication. The speech was literally teeming with anathemas against the dread monster of rum and kindred intoxicants, and the speaker's denunciation of the power which, directly or indirectly, grants the licensing or selling by tax of the horrible stuff, was thrilling in the extreme, and the address was enthusiastically applauded by his hearers.

The evangelist followed the life and conduct of the great temperance organizations in this and the old country, from the Washingtonian movement down to the present time, showing how it was fondly hoped that they would succeed in wiping out the demon which ruins bodies and souls; showing how failure was the result, and then showing how the Woman's Christian Temperance union came on the stage of action, still holds the fort, and, under God, may lead the army which is destined to conquer. Why? Because it builds on Christ.

The evangelist then builded, before the eyes of his audience, an immense structure, 100 times larger than machinery hall, at the World's Fair, Chicago, with great tiers of seats all around and about, overlooking the arena or center of the hall. Then came marching in, to occupy these seats, an immense procession, headed by the president of the United States, followed by members of the senate and house of representatives; the governors of the various states, subordinate officials, bishops of churches, presidents of synods, presiding elders, preachers, deacons, all church officials, Epworth League officials, Christian Endeavor officials, Sabbath school officials, class leaders and members of all churches, and these occupied the great tiers of seats—five millions of Christian voters among them. All the eyes of this vast multitude were then fastened on another procession carrying burdens and dropping these burdens in the center of the coliseum. Horrified eyes were then

fastened on this awful sight, this gruesome spectacle, consisting of one hundred thousand dead victims of the damning, blistering, debasing, revolting drink curse; one hundred thousand immortal souls, sent, in the short period of one year, to a drunkard's grave and a drunkard's hell. Oh, the sorrow of it! Oh, the pity of it! Oh, the curse of it! What an awful sight! And, oh, to think that professing Christians, members of the church of the living God, could, if they would, wipe out the awful curse which annually presents such an infamous, such a revolting, such a soul harrowing spectacle. "For the sake of God and humanity, Christian voters, be up and doing. Compel the officials of this nation and of the churches to do their duty. Take the accursed question out of politics, or step inside the arena of politics and declare, by the God that rules heaven and earth, that the infamous liquor curse shall no longer exist in this great nation, the home of the brave and the free."

The present council of Wellsville consists, with the exception of three members, of men belonging to various churches. In the coming spring there will be four members to elect, as one member will hand in his resignation this evening, at the regular meeting. There will be a mighty effort made to place the right kind of men in power.

There are 12 ladies of the Woman's Christian Temperance union on in the city today securing signatures to the following resolution, in the shape of a petition, which was unanimously adopted at the meeting held on Saturday night last, and which will be presented to council at the meeting tonight:

"To the Honorable Council of the City of Wellsville, Ohio:

"We, the undersigned citizens of Wellsville, Ohio, would respectfully petition your honorable body to pass an ordinance prohibiting ale, beer and porter houses, and all other places where intoxicating liquors are sold."

The petition will be numerously signed, by good and true men, and council will be compelled to place itself on record. The outcome is looked for with intense interest. The people are in deadly earnest.

IN LIVERPOOL.

Good Services Conducted Yesterday by the Great Evangelist.

The Sunday morning meeting at the Methodist Protestant church was very interesting, the evangelist preaching on the topic of heaven and the genuine pleasures of a Christian life, even upon this earth, demonstrating the fact that it pays to live a pure life, both in time and in eternity.

The services of the afternoon were descriptive of the early youth, life and character of the evangelist, his conversion and the means which were conducive of his entry upon evangelistic work.

Last night the Methodist Protestant church was filled to overflowing. Sweet singing was a preparatory service. The evangelist took as his subject "the great election, or for whom will you vote?" The speaker first described the character of the two candidates, Satan, the originator of all evil, sorrow and sin, and his opponent, the prince of Calvary. In burning words of eloquence he described the awful character of the devil, and illustrated how, with devilish cunning, he fooled his followers, making them believe that he was and is their friend, finally landing his voters and votaries in a pit of never-ending agony, sorrow and woe.

Then he took up the life and character of the blessed Christ, showing how He came to earth, leaving the throne of glory and suffering sorrow, shame, ignominy and shameful death, all for the love He bore and still bears for our common humanity, and all for the purpose of satisfying outraged justice and opening up an avenue of mercy, whereby "whosoever will may come." His delineation of the wondrous love and mercy of our God met with hearty "amens" and expressions of approval from his deeply attentive hearers.

The evangelist took the dear old Bible in his hands, pressed the book of books to his breast and declared it the promise of God unto a sinful world, pleading with his audience to hold it sacred and beyond price; pleading with them to hold it in their public schools, and to defy any and every power of wickedness and sin which dared to attempt to remove it, with its God-like influence over the youth of the nation. His words were responded to with hearty "amens" all over the house.

Meeting tonight. You have a special invitation.

MARLATT AND HIS WAYS

A Sketch of Columbiana's
Famous Prisoner.

HE BEHAVES HIMSELF NOW

But Continues to Stutter That He Wants
Out of Prison—The Assaults He Has Com-
mitted and the Unlucky Victims—More
About Him.

So many persons have become interested in the case of Ira Marlatt that a Columbus paper feels called upon to give all the information that can be gathered of the demon.

Marlatt was sent to the penitentiary Oct. 31, 1891, from Mahoning county to serve a life sentence on the charge of murder in the second degree. He had been indicted for murder in the first degree, for killing a farmer who refused to loan him \$500. His mother and sisters live in Columbiana county, the latter, of whom there are three, being teachers in the public schools of that county. When Marlatt was arrested for the crime of killing the old farmer he shot two or three men, but did not kill anyone. He was not given the extreme punishment for the crime because of a doubt of the man's sanity.

He is 34 years of age, being but 28 when arrested for the crime. He was very unruly in the prison at the first, and has been steadily growing worse until a short time ago. On Dec. 11, 1894, he "ran amuck" and made a deadly assault on three men in the prison court, striking one man in the head with a brick and splitting the right hand of Guard Reese, of Trumbull county, with a knife. Deputy Warden Stackhouse was attacked at the same time, but only received a small cut on the hand. April 19, 1895, he assaulted DeLappe, a Licking county prisoner, and buried a knife in his side, nearly killing him.

He was in solitary confinement from Dec. 11, 1894, until he cut DeLappe, when he was transferred to the prison asylum and placed in a special cell of boiler iron, constructed to keep him from getting weapons. Notwithstanding this, he made one of the awful weapons, for which he was famous, and on Oct. 11, 1895, he stabbed Guard E. O. Gump of Shelby county, near the heart. But for the fact that a rib was split and the point of the weapon deflected, the guard would have been killed. In September, 1894, he professed religion, but this was only a ruse to get someone in his power to gratify his passion to kill. Recent attempts by this psychological puzzle to lure guards and officers into his cell to kill them have been fully published. At this writing he is apparently docile, but he tells everyone who comes near his cell, in his stuttering way, that he "W-w-wants on-out-t-t-t."

DEATHS OF A DAY.

The Reaper Gathers In Well Known People.

William H. McBride died last evening at his home in West End after a lingering illness from consumption, aged 45 years. A wife and six children are left to mourn his loss. The funeral will take place from his late residence tomorrow afternoon at 2 o'clock. Interment will be made at Spring Grove.

Interment will be made at Riverview.

William Thornberry, an old resident of East Liverpool, died at the residence of his daughter, Mrs. George Robinson, of Chestnut street, last evening at 11:50. Mr. Thornberry was 70 years old, and has been suffering for the past year with a complication of diseases. His wife and eight children survive him. ANOTHER OFFER.

Reading Wants Toadix Carey to Play Ball.

George Carey this morning received a letter from Denny Long, manager of the Reading baseball club, asking him to send his terms. Carey will pay no attention to the letter until he hears from Philadelphia. He expects to receive word this week when to report, as the Philadelphia club leave on March 10 for their training quarters at Augusta, Ga.

THEY FAVOR IT.

East Liverpool Has No Objection to a New Jail.

A number of property owners of the city were asked today what they thought of the project to build a new county jail

at Lisbon, and they showed little interest in the matter. One said that if the county needed it, and he guessed it did, it ought to have it, while another realized that taxes are high but the county could not afford to kill off its prisoners by keeping them in the old jail. All sorts of opinions were expressed, but the prevailing thought was that East Liverpool has no reason to oppose the action of the commissioners.

THE NEWS FROM LISBON.

What Is Happening In the County Seat.

LISBON, Feb. 25.—[Special.]—Levi Groner, a Leetonia harness and saddle maker, went to the wall Saturday evening and filed a deed of assignment to C. D. Dickinson. The assets include his stock and a lot in Leetonia amounting to \$1,500.

The Beaver Valley Poultry and Pst Stock association was organized here Saturday afternoon. The officers are: President, J. S. McIntosh; George Mason and F. M. Grooms, center township, vice presidents; secretary, S. P. Scott, Columbiana; manager, J. J. Gruber; treasurer, C. M. Miller.

Fred Foley, a Wellsville boy who has spent a month with Sheriff Gill for violating the liquor law, was released this morning.

A marriage license was issued to William Webber and Emma Scullion.

ANOTHER FOR FREDERICK.

He Won the Bicycle Race With Miles to Spare.

The four-hour bicycle race at the rink Saturday evening was won by Frederick. The starters in the race were Rex, King, Frederick and Sinclair, but after King had passed one mile and two laps he punctured his tire, and had to leave the track. Frederick took the lead at the start and gained a lap on Rex, who could not pass Sinclair. Both riders then passed Sinclair, and kept the same distance apart until 9 o'clock, when Rex left the track for six minutes on account of illness, and lost two miles and nine laps. A general smashup occurred at 9:30, and all riders went down in a bunch, but no one was hurt. The score:

	Miles.	Laps.
Rex	65	1
Frederick	68	8
Sinclair	50	...
King	1	2

MC'COY IS OUT.

He Decided This Afternoon to Withdraw From the Race.

Hon. A. H. McCoy decided this afternoon to withdraw from the senatorial contest, and his name will not be on the ballots cast by his friends one week from next Saturday. Several conferences were held today, and the result is found in the announcement as given above.

No particulars of the withdrawal are given out, but it is understood that Mr. McCoy took this action in the interest of harmony and for the welfare of the party. If he remained in the fight the delegation would go into the convention divided.

THE PLAN FAILED.

An Effort to Break Up a Singing Class Cost Money.

The singing class recently organized at Ohioville by Professor Barrett, of Fredericktown, is having a hard time of it. Last week a crowd of toughs decided to break up the class, and as a result a number of arrests have been made. One of the crowd paid \$5 and costs before he was arrested, as he heard there was a warrant out for him. Harry Reed, another of them, while being arrested broke away, and is still at large. More trouble is expected, but the class is ready to meet it.

HAPPINESS IN HEAVEN.

Doctor Lee Answered an Important Question.

Doctor Lee at the First Presbyterian church last night delivered an excellent sermon, his subject being happiness in heaven. The gentleman showed that the Bible taught perfect happiness on the other side, and this could not be if the saved knew their earthly friends, who were not saved, were suffering. The gentleman preached one of the best sermons ever heard in the church.

FOR TWO HOURS

Fighting Chickens Amused East End Sports.

The story is told today that a number of East End sports, accompanied by a few from the central part of the city, spent several hours watching roosters fight across the river. The crowd crossed the river early in the afternoon, and the main was continued until the snow drove them home. Some money was laid on the different contests, and East End won it all.

DEALS BY THE DOZEN

You Can Hear of Them on
Every Hand.

THE CITY WILL HAVE A BIG BOOM

If Half the Reported Projects on Foot
Ever Come to Anything More Than the
Talk Now Going On—Improvements by
the Railroad Company.

If half the schemes for making money, which are now being formed and discussed by residents of East Liverpool, ever amount to anything more than the formation stage this place will not be long in reaching a population of 25,000 souls and its wealth will be increased many fold, while its fame will spread far beyond the borders of the land.

Since it became an assured fact that prosperity would return with the inauguration of a Republican administration a number of schemes have been laid. Some have already gone by the board, others are hanging in the balance, and the remainder are only waiting developments until they can be made public. Whether any of the plans will amount to anything remains to be seen, but some projectors seem confident of success at no distant date.

Chief among them is the desire of four local men each with \$10,000 to buy or build a pottery. They have the money at hand, and it is understood they have made several offers to parties desiring to go into the business. As yet they have not succeeded in placing their capital. It is understood that they prefer a point in East Liverpool, or so close to it that they cannot be said to be out of the community.

Another pottery deal can not go through until next summer, but when it does it is said a plant in the city will change hands. Some parties now interested will likely retire, and their places will be taken by a well known resident who has the money and a tendency toward potting.

Still another project, or rather something even less shadowy than a project, is the sale of a well known pottery. It has not been offered for sale, but it is understood that the parties owning it would not object to a deal provided they could get their price. According to report they have had more than one offer.

The railroad company is also accused of a desire to make improvement, although no time for it has been set. At some places in the city their right of way is very narrow, and they are desirous of having ground for more tracks, in fact for three tracks. It is known that they watch all real estate deals in the lower part of the city very closely, and although no land has been bought for some time the knowing ones say they would not be surprised to see the company take a big slice of realty at almost any time.

There are other plans, several of them, and the interested parties are watching them closely, but have not yet a word to give to the public.

SEVERAL THINGS IN SIGHT.

But the Board of Trade Has Not a Word to Say.

Officials of the board of trade have several projects on hand, but have nothing to give out for publication. The matters are being investigated and pushed, and it is believed they will result in something good for the city. The nature of the plans are not even made known, but there can be no doubt that they relate to the establishment of industries of some sort in the city or on the other side. Secretary Travis said today, with a smile, that the board had some important matters on hand, but nothing would be said until something definite was known. "We are not idle if we don't talk much," he said.

IT'S A GOOD THING

For E. C. McVoy and the Bankers Who Use It.

E. C. McVoy, the well known crockery salesman who looks after a portion of the east for the Sebring company, derives a comfortable income from another source. Mr. McVoy some time ago conceived the idea of a pad to be used by bankers and others who handle large quantities of bills. The thought resulted in a device complete in every detail. He secured a patent, and placing it in the hands of men who handle bankers' supplies now rests easy in the knowledge that he has a very good thing. While it was only recently put on the market a great many have been sold.

A Long Race.

A project is on foot to hold a four-day bicycle race at the rink in the near future. The popularity of bicycle racing has made those back of the project think the race will be the most successful yet held.

Charles Hoyt, died this morning at his home at Walker, after a two weeks' illness from catarrhal trouble, aged 19 years. Deceased was formerly employed in the decorating department of the Burford pottery, and was universally liked by all who knew him. The funeral will take place tomorrow from his late residence. Interment will be made at Riverview.

William Thornberry, an old resident of East Liverpool, died at the residence of his daughter, Mrs. George Robinson, of Chestnut street, last evening at 11:50. Mr. Thornberry was 70 years old, and has been suffering for the past year with a complication of diseases. His wife and eight children survive him. The interment will take place Wednesday at 2 o'clock in Spring Grove cemetery.

ANOTHER OFFER.

Reading Wants Toadix Carey to Play Ball.

George Carey this morning received a letter from Denny Long, manager of the Reading baseball club, asking him to send his terms. Carey will pay no attention to the letter until he hears from Philadelphia. He expects to receive word this week when to report, as the Philadelphia club leave on March 10 for their training quarters at Augusta, Ga.

THEY FAVOR IT.

East Liverpool Has No Objection to a New Jail.

A number of property owners of the city were asked today what they thought of the project to build a new county jail

at Lisbon, and they showed little interest in the matter. One said that if the county needed it, and he guessed it did, it ought to have it, while another realized that taxes are high but the county could not afford to kill off its prisoners by keeping them in the old jail. All sorts of opinions were expressed, but the prevailing thought was that East Liverpool has no reason to oppose the action of the commissioners.

THE NEWS FROM LISBON.

What Is Happening in the County Seat.

LISBON, Feb. 25.—[Special.]—Levi Groner, a Leetonia harness and saddle maker, went to the wall Saturday evening and filed a deed of assignment to C. D. Dickinson. The assets include his stock and a lot in Leetonia amounting to \$1,500.

The Beaver Valley Poultry and Pet Stock association was organized here Saturday afternoon. The officers are: President, J. S. McIntosh; George Mason and F. M. Grooms, Center township, vice presidents; secretary, S. P. Scott, Columbiana; manager, J. J. Gruber; treasurer, C. M. Miller.

Fred Foley, a Wellsville boy who has spent a month with Sheriff Gill for violating the liquor law, was released this morning.

A marriage license was issued to William Webber and Emma Scallion.

ANOTHER FOR FREDERICK.

He Won the Bicycle Race With Miles to Spare.

The four-hour bicycle race at the rink Saturday evening was won by Frederick. The starters in the race were Rex, King, Frederick and Sinclair, but after King had passed one mile and two laps he punctured his tire, and had to leave the track. Frederick took the lead at the start and gained a lap on Rex, who could not pass Sinclair. Both riders then passed Sinclair, and kept the same distance apart until 9 o'clock, when Rex left the track for six minutes on account of illness, and lost two miles and nine laps. A general smashup occurred at 9:30, and all riders went down in a bunch, but no one was hurt. The score:

	Miles.	Laps.
Rex	65	1
Frederick	68	8
Sinclair	50	50
King	1	2

M'COY IS OUT.

He Decided This Afternoon to Withdraw From the Race.

Hon. A. H. McCoy decided this afternoon to withdraw from the senatorial contest, and his name will not be on the ballots cast by his friends one week from next Saturday. Several conferences were held today, and the result is found in the announcement as given above.

No particulars of the withdrawal are given out, but it is understood that Mr. McCoy took this action in the interest of harmony and for the welfare of the party. If he remained in the fight the delegation would go into the convention divided.

THE PLAN FAILED.

An Effort to Break Up a Singing Class Cost Money.

The singing class recently organized at Ohioville by Professor Barrett, of Fredericktown, is having a hard time of it. Last week a crowd of toughs decided to break up the class, and as a result a number of arrests have been made. One of the crowd paid \$5 and costs before he was arrested, as he heard there was a warrant out for him. Harry Reed, another of them, while being arrested broke away, and is still at large. More trouble is expected, but the class is ready to meet it.

HAPPINESS IN HEAVEN.

Doctor Lee Answered an Important Question.

Doctor Lee at the First Presbyterian church last night delivered an excellent sermon, his subject being happiness in heaven. The gentleman showed that the Bible taught perfect happiness on the other side, and this could not be if the saved knew their earthly friends, who were not saved, were suffering. The gentleman preached one of the best sermons ever heard in the church.

FOR TWO HOURS

Fighting Chickens Amused East End Sports.

The story is told today that a number of East End sports, accompanied by a few from the central part of the city, spent several hours watching roosters fight across the river. The crowd crossed the river early in the afternoon, and the main was continued until the snow drove them home. Some money was laid on the different contests, and East End won it all.

DEALS BY THE DOZEN

You Can Hear of Them on
Every Hand.

THE CITY WILL HAVE A BIG ROOM

If Half the Reported Projects on Foot
Ever Come to Anything More Than the
Talk Now Going On—Improvements by
the Railroad Company.

If half the schemes for making money, which are now being formed and discussed by residents of East Liverpool, ever amount to anything more than the formation stage this place will not be long in reaching a population of 25,000 souls and its wealth will be increased many fold, while its fame will spread far beyond the borders of the land.

Since it became an assured fact that prosperity would return with the inauguration of a Republican administration a number of schemes have been laid. Some have already gone by the board, others are hanging in the balance, and the remainder are only waiting developments until they can be made public. Whether any of the plans will amount to anything remains to be seen, but some projectors seem confident of success at no distant date.

Chief among them is the desire of four local men each with \$10,000 to buy or build a pottery. They have the money at hand, and it is understood they have made several offers to parties desiring to go into the business. As yet they have not succeeded in placing their capital. It is understood that they prefer a point in East Liverpool, or so close to it that they cannot be said to be out of the community.

Another pottery deal can not go through until next summer, but when it does it is said a plant in the city will change hands. Some parties now interested will likely retire, and their places will be taken by a well known resident who has the money and a tendency toward potting.

Still another project, or rather something even less shadowy than a project, is the sale of a well known pottery. It has not been offered for sale, but it is understood that the parties owning it would not object to a deal provided they could get their price. According to report they have had more than one offer.

The railroad company is also accused of a desire to make improvement, although no time for it has been set. At some places in the city their right of way is very narrow, and they are desirous of having ground for more tracks, in fact for three tracks. It is known that they watch all real estate deals in the lower part of the city very closely, and although no land has been bought for some time the knowing ones say they would not be surprised to see the company take a big slice of realty at almost any time.

There are other plans, several of them, and the interested parties are watching them closely, but have not yet a word to give to the public.

SEVERAL THINGS IN SIGHT,

But the Board of Trade Has Not a Word to Say.

Officials of the board of trade have several projects on hand, but have nothing to give out for publication. The matters are being investigated and pushed, and it is believed they will result in something good for the city. The nature of the plans are not even made known, but there can be no doubt that they relate to the establishment of industries of some sort in the city or on the other side. Secretary Travis said today, with a smile, that the board had some important matters on hand, but nothing would be said until something definite was known. "We are not idle if we don't talk much," he said.

IT'S A GOOD THING

For E. C. McVoy and the Bankers Who Use It.

E. C. McVoy, the well known crockery salesman who looks after a portion of the east for the Sebring company, derives a comfortable income from another source. Mr. McVoy some time ago conceived the idea of a pad to be used by bankers and others who handle large quantities of bills. The thought resulted in a device complete in every detail. He secured a patent, and placing it in the hands of men who handle bankers' supplies now rests easy in the knowledge that he has a very good thing. While it was only recently put on the market a great many have been sold.

A Long Race.

A project is on foot to hold a four-day bicycle race at the rink in the near future. The popularity of bicycle racing has made those back of the project think the race will be the most successful yet held.

EAST LIVERPOOL, O., MONDAY, MARCH 1.

THIS time next week we will have a
good president.

WELLSVILLE has made the right move
in the right direction. If that town can
but get rid of the hell holes that have
curse it so long it will be vastly im-
proved for every purpose.

"ONLY four more days of Grover"
says the Alliance Leader, with a sigh of
relief. And yet the Leader is a Demo-
cratic paper, and worked hard for the
stuffed prophet's election.

THERE is much wisdom in the decision
of Republican leaders to leave currency
reform until some future time. The
tariff is all important, and should be
disposed of before any other matter is
considered.

ANY movement having for its object
the construction of a new jail at Lisbon
cannot but meet with the hearty ap-
probation of the county. That enlightened
and advanced Columbiana should con-
fine its wickedness in that miserable old
death trap they now call a jail, is noth-
ing short of disgraceful.

It is high time a Republican adminis-
tration assumed control of this govern-
ment. Customs receipts under the first
20 months of the McKinley law were
\$468,294,689; for the time under the
Wilson law it was \$390,144,718, a de-
crease of \$78,149,971. If that isn't an
argument for the death of the Wilson
bill, the day of argument is over.

THE Salem News wears its hat on the
side of its head, puts its thumbs in the
arm holes of its vest, and walks about
with giant stride, and all because the
town is going to have a building boom.
That is all well enough for our enter-
prising little neighbor, but wait until
East Liverpool gets its share of the com-
ing prosperity. This town is preparing
to show the county a thing or two in
the way of new buildings.

THE LAST WEEK.

The last week of Mr. Cleveland's ad-
ministration opens dark and gloomy if
he has hope of regaining what he has
lost since inauguration day four years
ago. He has yet a few days of official
life, but the time is too short to clear
his name. He goes from office with the
knowledge that his country's finances
are in the most deplorable condition,
and that thousands of his fellow coun-
trymen are daily crying for the bread
they cannot buy. He becomes a private
citizen knowing that his vicious policy
has been responsible for the sufferings
of tens of thousands of once happy
human beings, and that poverty and
want have increased many fold under
his guiding hand and tutelage. Mr.
Cleveland remembers, if his memory
has not been dulled during these years
of power, that he became the executive
head of this great nation when it was
a land flowing with milk and honey;
and, if he but look beyond the confines
of his stately mansion, he will see that
it is now the abode of squalor and
misery. He will gaze upon the unem-
ployed skill and muscle of a host, and
seeing beyond them will behold their
weeping wives and families. A glance
into the past will show him bursting
banks and ruined merchants, and a look
at events no later than last year will
prove to him how effective have been
his efforts toward the development of
despair. It is not a pretty picture nor
yet a pleasant one, but there it stands
darkened with all the hideousness of its
own nature, decorated by the sadness
which he did so much to create. It will
live in history, live as long as the
shadow of its misery will be a thought
in the minds of the people, and if these
same people give a moment to the
wealthy potentate of Princeton it will
be to remember that he, and he in a
large measure, was responsible for its
being.

ONE MAN CRUSHED TO DEATH.

Load of Sugar Carried Five Floors Into
a Cellar at Cincinnati.

CINCINNATI, March 1.—Five floors of
the Shinkle, Wilson & Kreis company's
wholesale grocery crashed down in a
heap into the cellar under a load of
nearly 1,000 barrels of sugar Saturday
night. Michael Schwabach, the watch-
man, was crushed to death and William
H. Gerds, a clerk, and Michael Cole-
man, a drayman, were slightly injured.
The building, No. 1 East Front street,
is five stories high, 30 feet wide and 80
feet deep. Twenty feet of the five
floors next to Front street remain stand-
ing. It was near the elevator in the
rear of the building that the floors were
loaded. The property loss, according
to Mr. Shinkle's estimate will not ex-
ceed \$20,000. The lower floor of the
building is 20 inches under water.

Alleged Burglars Indicted.

WOOSTER, March 1.—The Wayne
county grand jury adjourned Saturday.
Twelve indictments were found against
nine persons. Among these were the
following: Richard Lee, John Levers,
Elmer Berry and Elmer Geiselman, for
attempt at highway robbery; Richard
Lee and Elmer Geiselman, for burglary
at the residence of Berry Bristow;
Richard Lee and Elmer Berry, for having
burglars' tools in their possession;
Richard Lee, for burglary at the hotel
at Apple Creek. These four men are
thought to be members of the masked
gang which has operated so long in
this vicinity.

A Catholic Church Destroyed.

BELLEFONTAINE, O., March 1.—St.
Patrick's church and contents has been
entirely consumed by fire. The flames
ignited from a furnace under the con-
vent. The parsonage and school
buildings adjacent were saved. The
loss is about \$15,000 and insurance
\$3,500. St. Patrick's church was the
only Catholic church in this city and
the loss is deeply felt.

Cincinnati Republican Ticket.

CINCINNATI, March 1.—The Republi-
can city convention nominated the fol-
lowing ticket: For mayor, Levi C.

berger; clerk of court, R. K. Hy-
nicks; corporation counsel, Fred

Compromised a Damage Case.

YOUNGSTOWN, O., March 1.—The case
of W. N. Beeler, of Crestline, O.,
against the Pennsylvania Railroad com-
pany for \$25,000 damages has been set-
tled out of court by the company agree-
ing to pay the plaintiff \$1,500. The
plaintiff was knocked off a box car at
Mansfield by a projecting coal chute
three years ago.

For Internal Revenue Collector.

MARION, O., March 1.—At the meet-
ing of the county Republican executive
committee, held in this city, Easton E.
Drown was endorsed for the appoint-
ment of internal revenue collector in
the Tenth district. A resolution was
adopted endorsing the action of Gov-
ernor Bushnell in appointing Mr.
Hanna senator.

A Young Girl's Body Found.

WHEELING, March 1.—The body of a
young girl, probably 11 years of age,
has been found in the water at the
Sisters' island, about five miles above
Wheeling. There is no clue to her
identity, but she is believed to be the
young Snyder girl who fell off the ferry
boat at Steubenville last October.

Flood Over at Cincinnati.

CINCINNATI, March 1.—At midnight
the river registered 56 feet 6 inches and
falling two inches an hour. This was
fall of 4 feet 8 inches since 8 o'clock
Friday night. Navigation will be fully
resumed tonight. If no more rain falls
the flood is over.

Charged With Stealing.

WEST LIBERTY, O., March 1.—An-
thony McFarland has been arrested at
Urbana, and John Tolarn at Spring-
field, on the charge of stealing meat,
chickens and cloverseed from Mrs.
Lizzie Stoltzfus. McFarland is an ex-
convict.

The Pope May Settle It.

NEW YORK, March 1.—A dispatch
from London says: A correspondent in
Athens telegraphs that the Roman
Catholic archbishop of Athens has sent
a dispatch to the pope asking his holiness
to mediate between Greece and the
powers.

Cut His Own Throat.

TOLEDO, March 1.—Harry Kuhn, a
well-known resident of Delta, commit-
ted suicide by cutting his throat with a
shoe knife.

REED'S SEVERE TASK.

Worked Hard to Keep Down
the Appropriations.

GREATEST OF ANY CONGRESS.

The Total Far Beyond the Billion Mark.

Breaking the Record—Much Necessary
to Continue Work Authorized by Other
Congresses—Session Reviewed.

WASHINGTON, March 1.—Speaker
Reed and the other Republican leaders
of the house entered upon the final ses-
sion of the Fifty-fourth congress with
the avowed determination that no leg-
islation which compelled great expendi-
tures of public money should be en-
acted during the session. They felt
compelled to adopt this policy because
of the condition of the treasury, and
they have generally adhered to it, al-
though the regular appropriation bills
for the support of the government have
brought the total appropriations of this
congress far beyond the billion mark,
breaking the record of former con-
gresses. Many of the appropriations,
notably those for river and harbor im-
provements and for public buildings,
were necessary to continue works au-
thorized by other congresses.

No public buildings have been started
by this session and no new battleships
or vessels of any description, although
the creation of a "new navy" begun
several years ago, has by no means
been abandoned. The intention of the
house leaders at the beginning of the
session was to confine the work so far
as possible to the appropriation bills and
they have been successful in living up
to their policy. These bills, moreover,
have been crowded with fewer new
projects and less general legislation
than usual.

The last week of the session began
with several of the appropriation bills
not yet passed by the senate. Much of
the time of that body has been con-
sumed in the discussion of the Cuban
question, which the house has dealt
with only incidentally. Necessarily the
policy of the house to avoid new leg-
islation which involved expenditures has
been enforced upon the senate. The
Nicaragua canal bill, which was dis-
cussed at great length in the senate,
but not voted on, was not taken up in
the house, nor has the free home bill
which the senate passed had a hearing
at the other end of the capitol. The
Pacific railroad funding bill met a de-
cisive defeat in the house, so the senate
found it useless to discuss that propo-
sition.

One feature of the session's record
worthy of note is the great number of
private pension bills passed, many of
them placing the widows of officers on
the pension rolls, at ratings ranging
from \$30 to \$75 a month. Private
claims and war claims on the other
hand have been few. Several of the
pension bills were vetoed by President
Cleveland, but congress enacted some
of these despite the veto by the neces-
sary two-thirds majority. Several im-
portant bills are in the president's
hands awaiting his action, foremost
among them is the immigration bill,
which establishes an educational test
for immigrants and bars out laborers
who maintain their homes in other
countries. The anti-scalping bill may
be submitted the executive for his action
within two or three days and since
Senator Chandler has given notice that
he will move that the senate accept the
house amendments to the bill authoriz-
ing the president to call an interna-
tional monetary conference it is likely
that President Cleveland will be given
an opportunity to sign his name to that.
One act written upon the statute
books this session is noteworthy as
being the work practically of one man.
This is the act to reduce the cases in
which the penalty of death may be in-
flicted, a movement to which General
Curtis of New York has devoted the
best efforts of his congressional career.
The abolition of the death penalty has
been a long cherished enthusiasm with
General Curtis, now after years of
agitation of the subject he has succeeded
in erasing from the statute books all
United States laws imposing the death
penalty for other crimes than murder,
rape, treason or piracy, and endowed
juries with the power to stipulate
whether or not capital punishment shall
be inflicted for these crimes. An agita-
tion by dramatists, composers and
theatrical managers has resulted in
securing a law at this session fixing
heavy penalties for public performances
of copyrighted dramatic or musical
compositions and empowering all United
States circuit courts to enforce the
orders of any such court regarding
these performances. The interstate
commerce laws have been extended to
prevent traffic in obscene literature or
articles designed for immoral uses.

One of the most important pieces of
public land legislation permits the pat-
enting of lands containing petroleum or
other mineral oils under the mineral
land laws.

Among the acts of the session relating
to the courts were these:

Fixing the fees of the circuit court of
appeals; withdrawing from the su-
preme court jurisdiction of criminal
cases not capital and giving it to the
circuit court of appeals; an act provid-
ing heavy penalties for selling intoxi-
cants to Indians.

Military acts were passed authorizing
the conferring of officers of the regu-
lar army of the highest brevet rank
held by them in the volunteer service,
to authorize officers who served in the
regular army during the rebellion to
bear the official title and on ceremonial
occasions wear the uniform of their
ranks, for issuing certificates of service
to members of the telegraph corps; to
permit the appointment as medical offi-
cers of soldiers' homes of others than
those who have been disabled in the
military service; to appoint John Mar-
shall Brown of Maine a member of the
board of managers of national soldiers'
homes.

The time for completing the East river
bridge between New York city and
Long Island has been extended to Jan.
1, 1900.

This session has passed 16 bridge bills
and granted American registers to five
vessels. There have been several bills
enacted for the benefit of the dis-
trict of Columbia, a few of them ap-
plying to the inaugural ceremonies.

THE CABINET MEMBERS.

What Each Will Do For a Livelihood
After Thursday.

WASHINGTON, March 1.—All of the
members of the cabinet have laid their
plans for the future and have put their
affairs in such shape as to enable them
to return to the walks of private life
and pick up their business connections
without difficulty. The premier of the
cabinet, Secretary Olney, will go back
to Boston just as soon as he can close
up his household here and resume the
practice of law.

Secretary Lamont will take an actual
rest for a time after he turns over his
office to General Alger. He has packed
his household effects and will take his
family, all the children included, on a
six weeks' tour in the south. He will
return north from this trip to New
York and take active charge of the vari-
ous business interests which he has
never altogether relinquished during his
occupancy of the office of secretary of
war.

Secretary Carlisle has not yet fully
decided whether he will open a law
office in New York city or Louisville,
but his friends are of the opinion that
ultimately he will decide in favor of
New York.

Secretary Herbert has already an-
nounced his intention of opening a law
office in Washington and taking up the
active practice of the profession, which
he surrendered some years ago to enter
congress.

Attorney General Harmon will re-
enter his old law firm in Cincinnati.

Postmaster General Wilson settled
his plans for the future several weeks
ago by accepting the post of president
of Washington and Lee university at
Lexington, Va.

Secretary Francis will in all proba-
bility return to St. Louis within a fort-
night after the change of administra-
tion. He immediately resumes the di-
rection of the brokerage business of the
D. R. Francis commission house and
also reunites his ties to various com-
mercial institutions of St. Louis.

Secretary Morton will go back to his
splendid home, "Arber Lodge," just
outside of Nebraska City, Neb.

Assistant Secretary of the Interior
John M. Reynolds will remain until
his successor is inducted into office and
then expect to resume his law practice
at his old home in Bedford, Pa., where
he also has banking and other interests.

THE VENEZUELAN DISPUTE.

Commission Appointed by the President
Makes a Report.

WASHINGTON, March 1.—The report
of the commission appointed by the
president to determine the true divi-
sional line between Venezuela and Brit-
ish Guiana, though a voluminous docu-
ment, lacks the interest which might
have attached to it, owing to the fact
that the commission did not make a re-
port on the boundary question, leaving
that to be determined by the arbitral
tribunal upon the part of the two gov-
ernments most interested, Great Britain
and Venezuela.

Special reference is made to the
evident desire on the part of the two
governments directly concerned to aid
the commission in its investigation.
Every call for information or documents
was promptly responded to. Eulogistic
words were spoken of the individual
citizens of this country for proffering
and furnishing books and pamphlets or
other documents in their possession.

The report in detail states the vari-
ous documents, papers, maps, etc.,
which the commission or its agents ex-
amined, which it says will throw a
flood of light on the matter for the ar-
bitrators.

The report further says: "It would
seem that each has become impressed
with the conviction that the question is
one of such nature as to justify refer-
ence to an arbitral tribunal; that there
is no such absolute certainty of right
on the part of either as to justify a more
forcible assertion thereof and that the
question is really one calling for judi-
cial examination and determination.

A wise and just view of the case is that
the commission has been a principal in
bring the two nations into a consent to
submit the matter in dispute to an ar-
bitral tribunal. We are not blind to
the fact that the air today is full of ar-
bitration as a proper way to settle in-
ternational disputes, and we can but
praise the commission for having helped
to the consummation of such a happy
result generally, as well as in respect to
this particular dispute."

SUNDAY SESSION OF SENATE.

The Sundry Civil Appropriation Bill
Passed Finally.

WASHINGTON, March 1.—The usual
Sunday quiet of the capitol building
was disturbed by a session of the sen-
ate, made necessary to pass the approp-
riation bills. Large crowds filled the
galleries and overflowed to the cor-
ridors.

The sundry civil appropriation bill
was under consideration, a number of
important items in payment of sugar
bounties, for rivers and harbors, etc.,
remaining to be passed upon. A vote
on the sugar bounty amendment was
taken as soon as the session opened, and
it was agreed to, 37 to 12. The amend-
ment appropriates \$1,085,156 for the
balance of bounties earned from Aug-
ust, 1894, to June, 1895.

The river and harbor items next were
considered, most of the committee
amendments being agreed to as re-
ported.

No Person to Pay Pensions.

WASHINGTON, March 1.—Through the
expected failure of the senate to con-
firm the nomination of Levi T. Griffin
as pension agent at Detroit, Mich., there
will be no bonded officer to pay the pen-
sions on March 4 until another appoint-
ment can be made and confirmed.

MacVeagh Dined by a King.

ROME, March 1.—Their majesties,
King Humbert and Queen Margherita
of Italy, have given a banquet in honor
of Wayne MacVeagh, the American
ambassador. The principal foreign
diplomats and leading representatives
of the Italian nobility were present.

Whitewash For Ruiz's Murderers.

HAVANA, March 1.—The Marquis of
Abumada, the acting captain general
at Havana, stating that an official in-
quiry shows that no blame to the offi-
cials of the prison, to the other prison-
ers or to the authorities of Guanabaca
for the death of Dr. Ruiz.

Only Fitzsimmons Keated, But Out o
Respect For Mr. Julian's Memory.

CARSON CITY, Nev., March 1.—Work
continued as usual on Dan Stuart's big
amphitheater Sunday. Bob Fitzsimmons
did not work at all.

There was such a big crowd at Car-
son's headquarters that the services of
three barkeepers were required to sat-
isfy the demands of liquor.

But He Will Be Escorted to the Depot
In a Fitting Manner—Went To Church
Sunday as Usual.

CANTON, O., March 1.—Major and
Mrs. McKinley will leave Canton to-
night for their journey in the White
House at Washington.

There will be seven cars, including
Major McKinley's private car, and four
other private or Pullman cars for pas-
sengers, a dining car and a baggage car.

Chairman Garrettson of the escort
committee reached Canton from Cleve-
land this morning to complete arrange-
ments.

It is not expected that there will be
any public speaking on the trip to
Washington.

The train was made up in the Alliance
yards today and inspected for the trip.
In all the arrangements for the leave-
taking tonight the committee in charge
have considered Major McKinley's per-
sonal comfort and the arrangements
call for nothing that will fatigue him.

There will be no hand-shaking and no
farewell if it seems likely to tire him.
There will be no demonstration at the
house. The Canton troop, bands,
marching clubs, old soldiers and citi-
zens generally have been instructed to
meet at the city hall and there organize
and march to the McKinley home to es-
cort the president-elect and party to the
train. Whatever demonstration is made
will be at the station. Streets will be
illuminated and many buildings are
decorated.

This informality and simplicity is in
keeping with the major's wishes. He
desires no pompous demonstration to
usher in the important mission he goes
to Washington to fulfill.

The packing for the trip at the frame
cottage was well finished Saturday
night. Private Secretary Boyle has
stored the applications for office in
huge wooden cases state by state which
will be expressed to Washington.

At 9:30 last night the president-elect
and Mrs. McKinley said good bye to a
few neighbors and friends who had
called to say farewell. Dr. Phillips did
not make his usual evening call, as both
husband and wife were feeling so much
better.

Major McKinley joined a few friends
in the library after supper for a cigar
and a social chat. There is great re-
joicing over Major McKinley's evident
returning to robust health.

The inquiries as to the health of
Major and Mrs. McKinley brought very
gratifying answers. "Mrs. McKinley
is in her accustomed health," said Cap-
tain Heistand, "and will be able to un-
dertake the journey. The major shows
improvement every day, and undoubt-
edly is in better condition physically
now than he has been for some time."

Dr. T. H. Phillips, who is the McKin-
ley family physician and who attended
the major during his recent illness, said
to your representative:

"Major McKinley is well. He is in his
usual health and able to take the
trip and withstand the important events
of the week."

The major attended services at the
First Methodist Episcopal church Sun-
day morning, accompanied by Mr.
George B. Moore of San Francisco, the
husband of the daughter of his de-
ceased brother, and Captain H. O. S.
Heistand, who has been engaged at the
McKinley home since the return from
Columbus.

Rev. Dr. Manchester, the major's
pastor, conducted the services and made
only slight reference to the president-
elect and the position he is about to
assume. In the prayer he invoked
divine guidance in the cares so soon to
thrust upon an illustrious Cantonian
and prayed that faith and strength
might be vouchsafed him in the dis-
charge of all his duties.

An effort was made by some of the
congregation that crowded the big
church to the aisles to arrange an im-
promptu reception after service, but the
president-elect after the benediction
was pronounced walked briskly down
the aisle, and grasping the pastor by
the hand speedily passed out and walked
to his home.

In the afternoon the major and Mrs.
McKinley sought the refreshing influ-
ence of a short drive. For the re-
mainder of the day they remained quiet
at home, a few people calling.

ULTIMATUM FROM THE POWERS.

One Likely to Be Presented Today to
Both Greece and Turkey.

LONDON, March 1.—It is stated here
that there is good authority for believ-
ing that the result of the conferences
between the representatives of the
great powers at Constantinople and
Athens will be the presentation of col-
lective notes to Turkey and Greece to-
day. Greece will be allowed four days
to recall her land and sea forces from
Crete.

It is reported from Canea that several
insurgent leaders have sent to Vice Ad-
miral Canavaro of the Italian fleet a
signed declaration that the Cretans will
accept no solution of the pending ques-
tion but political union with Greece.

Fighting continues between the in-
surgents and Mussulmans near Retimo
and elsewhere. The Christians have
sieged the Turkish garrisons in the
blockhouse at Malata for several days.
A body of Turkish regulars and irregu-
lars left Canea Sunday with a convoy
to revictual the blockhouse. The insur-
gents attacked the column and killed
several, whereupon the Turkish battle-
ship squad opened fire upon the insur-
gents with shells and continued to firing
until stopped by order of the foreign
admirals. The convoy was finally com-
pelled to retire.

EAST LIVERPOOL, O., MONDAY, MARCH 1

This time next week we will have a good president.

WELLSVILLE has made the right move in the right direction. If that town can but get rid of the hell holes that have cursed it so long it will be vastly improved for every purpose.

"ONLY four more days of Grover" says the Alliance Leader, with a sigh of relief. And yet the Leader is a Democratic paper, and worked hard for the stuffed prophet's election.

THERE is much wisdom in the decision of Republican leaders to leave currency reform until some future time. The tariff is all important, and should be disposed of before any other matter is considered.

ANY movement having for its object the construction of a new jail at Lisbon cannot but meet with the hearty approbation of the county. That enlightened and advanced Columbiana should confine its wickedness in that miserable old death trap they now call a jail, is nothing short of disgraceful.

It is high time a Republican administration assumed control of this government. Customs receipts under the first 29 months of the McKinley law were \$468,294,689; for the time under the Wilson law it was \$390,144,718, a decrease of \$78,149,971. If that isn't an argument for the death of the Wilson bill, the day of argument is over.

THE Salem News wears its hat on the side of its head, puts its thumbs in the arm holes of its vest, and walks about with giant stride, and all because the town is going to have a building boom. That is all well enough for our enterprising little neighbor, but wait until East Liverpool gets its share of the coming prosperity. This town is preparing to show the county a thing or two in the way of new buildings.

THE LAST WEEK.

The last week of Mr. Cleveland's administration opens dark and gloomy if he has hope of regaining what he has lost since inauguration day four years ago. He has yet a few days of official life, but the time is too short to clear his name. He goes off with the knowledge that his country's finances are in the most deplorable condition, and that thousands of his fellow countrymen are daily crying for the bread they cannot buy. He becomes a private citizen knowing that his vicious policy has been responsible for the sufferings of tens of thousands of once happy human beings, and that poverty and want have increased many fold under his guiding hand and tutelage. Mr. Cleveland remembers, if his memory has not been dulled during these years of power, that he became the executive head of this great nation when it was a land flowing with milk and honey; and, if he but look beyond the confines of his stately mansion, he will see that it is now the abode of squalor and misery. He will gaze upon the unemployed skill and muscle of a host, and seeing beyond them will behold their weeping wives and families. A glance into the past will show him bursting banks and ruined merchants, and a look at events no later than last year will prove to him how effective have been his efforts toward the development of despair. It is not a pretty picture nor yet a pleasant one, but there it stands darkened with all the hideousness of its own nature, decorated by the sadness which he did so much to create. It will live in history, live as long as the shadow of its misery will be a thought in the minds of the people, and if these same people give a moment to the wealthy potentate of Princeton it will be to remember that he, and he in a large measure, was responsible for its being.

REED'S SEVERE TASK.

Worked Hard to Keep Down the Appropriations.

GREATEST OF ANY CONGRESS.

The Total Far Beyond the Billion Mark, Breaking the Record—Much Necessary to Continue Work Authorized by Other Congresses—Session Reviewed.

WASHINGTON, March 1.—Speaker Reed and the other Republican leaders of the house entered upon the final session of the fifty-fourth congress with the avowed determination that no legislation which compelled great expenditures of public money should be enacted during the session. They felt compelled to adopt this policy because of the condition of the treasury, and they have generally adhered to it, although the regular appropriation bills for the support of the government have brought the total appropriations of this congress far beyond the billion mark, breaking the record of former congresses. Many of the appropriations, notably those for river and harbor improvements and for public buildings, were necessary to continue works authorized by other congresses.

No public buildings have been started by this session and no new battleships or vessels of any description, although the creation of a "new navy" begun several years ago, has by no means been abandoned. The intention of the house leaders at the beginning of the session was to confine the work so far as possible to the appropriation bills and they have been successful in living up to their policy. These bills, moreover, have been crowded with fewer new projects and less general legislation than usual.

The last week of the session began with several of the appropriation bills not yet passed by the senate. Much of the time of that body has been consumed in the discussion of the Cuban question, which the house has dealt with only incidentally. Necessary to the policy of the house to avoid new legislation which involved expenditures has been enforced upon the senate. The Nicaragua canal bill, which was discussed at great length in the senate, but not voted on, was not taken up in the house, nor has the free home bill which the senate passed had a hearing at the other end of the capitol. The Pacific railroad funding bill met a decisive defeat in the house, so the senate found it useless to discuss that proposition.

One feature of the session's record worthy of note is the great number of private pension bills passed, many of them placing the widows of officers on the pension rolls, at ratings ranging from \$30 to \$75 a month. Private claims and war claims on the other hand have been few. Several of the pension bills were vetoed by President Cleveland, but congress enacted some of these despite that veto by the necessary two-thirds majority. Several important bills are in the president's hands awaiting his action, foremost among them is the immigration bill, which establishes an educational test for immigrants and bars out laborers who maintain their homes in other countries. The anti-scalping bill may be submitted the executive for his action within two or three days and since Senator Chandler has given notice that he will move that the senate accept the house amendments to the bill authorizing the president to call an international monetary conference it is likely that President Cleveland will be given an opportunity to sign his name to that.

One act written upon the statute books this session is noteworthy as being the work practically of one man. This is the act to reduce the cases in which the penalty of death may be inflicted, a movement to which General Curtis of New York has devoted the best efforts of his congressional career. The abolition of the death penalty has been a long cherished enthusiasm with General Curtis; now after years of agitation of the subject he has succeeded in erasing from the statute books all United States laws imposing the death penalty for other crimes than murder, rape, treason or piracy, and endowed juries with the power to stipulate whether or not capital punishment shall be inflicted for these crimes. An agitation by dramatists, composers and theatrical managers has resulted in securing a law at this session fixing heavy penalties for public performances of copyrighted dramatic or musical compositions and empowering all United States circuit courts to enforce the orders of any such court regarding these performances. The interstate commerce laws have been extended to prevent traffic in obscene literature or articles designed for immoral uses.

One of the most important pieces of public legislation permits the patenting of lands containing petroleum or other mineral oils under the mineral land laws. Among the acts of the session relating to the courts were these: Fixing the fees of the circuit court of appeals; withdrawing from the supreme court jurisdiction of criminal cases not capital and giving it to the circuit courts of appeals; an act providing heavy penalties for selling intoxicants to Indians.

Military acts were passed authorizing the conferring on officers of the regular army of the highest brevet rank held by them in the volunteer service, to authorize officers who served in the regular army during the rebellion to bear the official title and on ceremonial occasions wear the uniform of their ranks, for issuing certificates of service to members of the telegraph corps; to permit the appointment as medical officers of soldiers' homes of others than those who have been disabled in the military service; to appoint John Marshall Brown of Maine a member of the board of managers of national soldiers' homes.

The time for completing the East river bridge between New York city and Long Island has been extended to Jan. 1, 1900.

This session has passed 16 bridge bills and granted American registers to five vessels. There have been several bills enacted for the government of the District of Columbia, a few of them applying to the inaugural ceremonies.

THE CABINET MEMBERS.

What Each Will Do For a Livelihood After Thursday.

WASHINGTON, March 1.—All of the members of the cabinet have laid their plans for the future and have put their affairs in such shape as to enable them to return to the walks of private life and pick up their business connections without difficulty. The premier of the cabinet, Secretary Olney, will go back to Boston just as soon as he can close up his household here and resume the practice of law.

Secretary Lamont will take an actual rest for a time after he turns over his office to General Alger. He has packed his household effects and will take his family, all the children included, on a six weeks' tour in the south. He will return north from this trip to New York and take active charge of the various business interests which he has never altogether relinquished during his occupancy of the office of secretary of war.

Secretary Carlisle has not yet fully decided whether he will open a law office in New York city or Louisville, but his friends are of the opinion that ultimately he will decide in favor of New York.

Secretary Herbert has already announced his intention of opening a law office in Washington and taking up the active practice of the profession, which he surrendered some years ago to enter congress.

Attorney General Harmon will re-enter his old law firm in Cincinnati. Postmaster General Wilson settled his plans for the future several weeks ago by accepting the post of president of Washington and Lee university at Lexington, Va.

Secretary Francis will in all probability return to St. Louis within a fortnight after the change of administration. He immediately resumes the direction of the brokerage business of the D. R. Francis commission house and also reunite his ties to various commercial institutions of St. Louis.

Secretary Morton will go back to his splendid home, "Arbor Lodge," just outside of Nebraska City, Neb. Assistant Secretary of the Interior John M. Reynolds will remain until his successor is inducted into office and then expects to resume his law practice at his old home in Bedford, Pa., where he also has banking and other interests.

THE VENEZUELAN DISPUTE.

Commission Appointed by the President Makes a Report.

WASHINGTON, March 1.—The report of the commission appointed by the president to determine the true division line between Venezuela and British Guiana, though a voluminous document, lacks the interest which might have attached to it, owing to the fact that the commission did not make a report on the boundary question, leaving that to be determined by the arbitral decided upon between the two governments most interested, Great Britain and Venezuela.

Especially reference is made to the evident desire on the part of the two governments directly concerned to aid the commission in its investigation. Every call for information or documents was promptly responded to. Ecologist words was spoken of the individual citizens of this country for proffering and furnishing books and pamphlets or other documents in their possession.

The report in details states the various documents, papers, maps, etc., which the commission or its agents examined, which it says will throw a flood of light on the matter for the arbitrators.

The report further says: "It would seem that each has become impressed with the conviction that the question is one of such nature as to justify reference to an arbitral tribunal; that there is no such absolute certainty of right on the part of either as to justify a more forcible assertion thereof, and that the question is really one calling for judicial examination and determination. A wise and just view of the case is that the commission has been a principal in bringing the two nations into a consent to submit the matter in dispute to an arbitral tribunal. We are not blind to the fact that the air today is full of arbitration as a proper way to settle international disputes, and we can but hope that this commission has helped to the consummation of such a happy result generally, as well as in respect to this particular dispute."

SUNDAY SESSION OF SENATE.

The Sundry Civil Appropriation Bill Passed Finally.

WASHINGTON, March 1.—The usual Sunday quiet of the capitol building was disturbed by a session of the senate, made necessary to pass the appropriation bills. Large crowds filled the galleries and overflowed to the corridors.

The sundry civil appropriation bill was under consideration, a number of important items in payment of sugar bounties, for rivers and harbors, etc., remaining to be passed upon. A vote on the sugar bounty amendment was taken as soon as the session opened, and it was agreed to, 37 to 12. The amendment appropriates \$1,085,156 for the balance of bounties earned from August, 1894, to June, 1899.

The river and harbor items next were considered, most of the committee amendments being agreed to as reported.

No Person to Pay Pensions.

WASHINGTON, March 1.—Through the expected failure of the senate to confirm the nomination of Levi T. Griffin as pension agent at Detroit, Mich., there will be no bonded officer to pay the pensions on March 4 until another appointment can be made and confirmed.

MacVeagh Dined by a King.

ROME, March 1.—Their majesties, King Humbert and Queen Margherita of Italy, have given a banquet in honor of Wayne MacVeagh, the American ambassador. The principal foreign diplomats and leading representatives of the Italian nobility were present.

WILL LEAVE TONIGHT.

The McKinleys Ready to Start For Washington.

BOTH ARE IN GOOD HEALTH.

The Major Wished No Demonstration, But He Will Be Escorted to the Depot In a Fitting Manner—Went To Church Sunday as Usual.

CANTON, O., March 1.—Major and Mrs. McKinley will leave Canton tonight for their sojourn in the White House at Washington.

There will be seven cars, including Major McKinley's private car, and four other private or Pullman cars for passengers, a dining car and a baggage car. Chairman Garretson of the escort committee reached Canton from Cleveland this morning to complete arrangements.

It is not expected that there will be any public speaking on the trip to Washington.

In all the arrangements for the leave taking tonight the committee in charge have considered Major McKinley's personal comfort and the arrangements call for nothing that will fatigue him. SANGUILLY PRAISED LEE.

His Presence Sooner Would Have Saved the Lives of Many Americans—A Spaniard Converted to the Cause of Cuban Liberty.

KEY WEST, March 1.—General Julio SangUILLY has arrived from Havana by the steamship Mascotte. He expressed his lasting gratitude to Consul General Fitzhugh Lee, whom he described as a truly noble American and a man who should long ago have been in Cuba. "Had he been there years ago," General SangUILLY exclaimed, "there would have been less shedding of American blood."

He further said: "I have not been allowed to read one solitary newspaper except those published on the island. When I heard of the death of brave General Maceo, it almost made me collapse, not because I thought the death of any one man would check the progress of the Cuban cause, but because I knew then that the Butcher Weyler would not be recalled, as Spain would try to pacify the people by pointing to Maceo's death as a great victory for the government."

Speaking of his plans for the future, General SangUILLY said:

"I do not know them myself, but I am going to Washington to attend the inaugural parade, having been invited by the old veteran boys to parade with them. I have been given a place of honor in the parade."

General SangUILLY's wife was equally loud in her praise of Consul General Lee.

Senor Morote, correspondent of El Liberal of Madrid, on being interviewed stated that he had been a prisoner of Maximo Gomez, and that while in the camp of the insurgent leader he was treated with marked courtesy. He learned that the reforms proposed by Spain would never be accepted by the Cubans, and that nothing short of the independence of the island would bring about a cessation of hostilities.

Senor Morote said that his study of the Cuban cause had convinced him that it was a just one. Referring to General Weyler he said:

"We have a general there who is causing devastation and ruin to the whole island simply because he now sees that it is lost to Spain, and that the Cubans will win in spite of all opposition Spain can offer."

With Senor Brinas, Senor Morote gave three ringing cheers for Cuba libre.

OFFERING PEACE TO RIVERA.

Two Prominent Spaniards Now In a Rebel Camp.

HAVANA, March 1.—It is understood that documents have been forwarded to the state department at Washington for examination with respect to the cases of Ruiz, Scott and other Americans similarly maltreated by the Spanish authorities.

General Rafael de Cardenas and Judge Gonzalo Jorin, well-known citizens of Havana, are now in San Cristobal hills, Pinar del Rio, at the camp of General Ruiz Rivera, offering terms of peace. The guide who took them there has returned and reports that the interviews were of a friendly character.

General Pancho Carrillo is reported moving toward Matanzas in order to make a combination with the forces of Gomez. Hot fighting is expected in the Remedios district. The insurgents are reinforcing their stronghold at Palo Prieto, in the Platero hills, and near Sierra Meneses. Over 2,000 reinforcements have arrived in that vicinity and gone into camp, ready to make a joint attack with General Gomez.

WASHINGTON IS GAY.

The City Putting On Inaug-
uration Colors.

MAJ. MCKINLEY'S FINE QUARTERS.

An Elegant Suite at the Ebbitt House
Arranged For the President-Elect and
Party—Snakes Laid For Crooks—Vis-
itors Arriving.

WASHINGTON, March 1.—Inaugural
preparations come on apace. Within
the past twenty-four hours the crowds
have begun to show themselves notice-
ably on the streets; the depot platforms
and hotel lobbies are becoming more
and more congested with each incoming
train. Decorations begin to flaunt
along Pennsylvania avenue.

The grand arena of the inaugural
display will be the short section of the
avenue between Fifteenth and Seven-
teenth streets, flanked on the south by
the White House and on the north by
Lafayette square. Here both sides of
the street are a solid front of covered
stands. This year the stands are of
uniform design and decoration, save
that from which the president will
review the parade. This, with its white
front, Corinthian columns and severely
classical outlines, is not unlike a mini-
ature of the White House in its rear.
The other stands, those for the multi-
tude, are covered in imitation of stone
work, roofed over against the possibility
of bad weather, which is not a remote
contingency in this gala month of
March.

But the decorations, as they will
finally appear, are so far but a sugges-
tion. Now there are sunbursts of bunt-
ing over the fronts of the larger stores
and hotels and flags floating from every
building that owns a flagpole. These
are but symptoms. There will be more
to follow. After nightfall, too, there
are already to be seen garlands and
clusters of incandescent lights, but
these two are only an earnest of some-
what better things to come.

The inaugural committee has prac-
tically wound up its work, but the
headquarters in the Glover building are
still open for the reception of more or
less distinguished visitors. Among
those who have called are General
Horace Porter, General O. O. Howard,
National Chairman Mark Hanna and
the president-elect's secretary, J. Ad-
dison Porter. All of these gentlemen,
who have an official interest in the
work of the committee, expressed them-
selves as well satisfied with the arrange-
ments.

Practically all of the southwest
corner of the Ebbitt House, on the third
floor, has been reserved for the Mc-
Kinley party. The suite of three rooms
that has been set apart for the presi-
dent-elect has been arranged with excel-
lent taste. Blue and gray are the prevailing
tones. All of the desks and tables are
of polished cherry and birdseye maple,
while the piano which stands in one
corner, is of white enamel with a fluffy
white Angola rug spread over the blue
carpet in front of it. Tropical plants in
jardiniere, but not too many of them,
are grouped in the corners of the apart-
ments and connected with the suite is a
marble-lined bath. The whole is not
too large to be homelike and may be
aptly described as cozy. The location
is such as to have the best of the sun-
light all day and Major McKinley could
hardly be more comfortably lodged be-
fore getting finally settled in his new
home.

The side halls leading to this part
of the house have all been boarded up
and the entrance to the main corridor
will be constantly guarded by a factotum,
who will insure the party from intrusion
by those who have no real business in
that part of the house.

Further, there has been a special dining
hall set apart for the McKinley party.
It is a small banquet hall in the rear of
the main dining hall. It is capable of
accommodating about 75 people and is
the only thing needed to assure the
complete privacy of the Canton visi-
tors.

The general police arrangements in
Washington have also been perfected.
Four hundred special officers have been
sworn in for the inaugural week, and
Chief of Police Moore has been in cor-
respondence, as is usual at such seasons,
with the chiefs of police in all the large
towns of the country. Details of de-
tectives from the big cities will be sent
to Washington to keep watch on what-
ever members of their own criminal
population drift this way, while both
the Baltimore and Ohio and the Penn-
sylvania railroads have massed a num-
ber of their own detectives under their
respective chiefs along the road 20 miles
outside the city in each direction, in
hope of corralling any crooks of promi-
nence before they reach the city.

Visitors continue to arrive.

Two notable figures in the lobby at
the Arlington Sunday were Mark
Hanna and Governor Bushnell.

Hanna had just returned from a
walk when he noticed the group. There
was only an instant's hesitation on his
part. Then he walked straight to the
governor, and stretching out his hand,
said: "Hello, governor, glad to see
you." The governor's response was
equally as cordial, but there was an
awkward moment on the part of both
for the next word. This was happily
broken by General Sam Thomas, the
Ohio veteran, who said to Governor
Bushnell, "Who is your friend." This
bright sally broke the ice, and the two
leaders in Ohio politics talked pleas-
antly on commonplace topics.

FOR INDIANS AND NEGROES.

An Appeal Made for Aid for Catholic
Schools.

WASHINGTON, March 1.—A letter
from Cardinal Gibbons and Archbishops
Ryan and Kane, constituting a com-
mittee on Indian and negro missions,
has been read in all Catholic churches.
It says the contributions for these
missions during the last year have been
exceptionally large. But with the
gradual withdrawal of government aid
to the Indian schools, some of the
bishops report that a number of the
schools may have to be closed. For
this reason the cardinal and his asso-
ciates on the committee exhort liberal
contributions in order that the schools
may be properly carried on.

SKIRTS.

We advertised our Ready-made
Skirts Saturday, among them the \$1.98
Special. Of course when we advertise
a special line we expect some extra
trade on it, but we didn't expect to sell
as many Saturday as we did. It con-
vinces us of this fact, that good things
in Skirts are going to be good sellers
this season. The \$1.98 Special Skirt is
without doubt the greatest drive we
have ever shown, and we have completed
arrangements for the season, so that at
any time you can get the length and
size you want in this Skirt at our store.
We did not put it too strong when we
advertised it as a regular \$4.50 Skirt.
Customers told us Saturday that it was
as good as some stores were showing at
\$5.00. Our second invoice of these
Skirts will be in today. Among them
some 38 and 39 in. lengths. We were a
little short on these lengths Saturday.
We do not want you to get it into your
head that this is the only Skirt we have
in stock. Our \$2.50, \$3.00, \$3.50, \$4.00
and \$5.00 lines are the strongest we
have ever shown, and when you are
thinking about Skirts just remember
that we are showing a Black Brocade
Silk Skirt at \$8.00 that is a hummer.

Lace Curtains.

Our stock is all in. We are not go-
ing to quote prices, but will say this,
that we have a stock of Curtains that
range in price from 40c to \$1.00 a pair
that we want you to see before buying
if we can't convince you that we have
the best values in town buy them of the
other fellow.

tember.

ing potter, spent Sunday in the city.

The city was unusually quiet Satur-
day night, and there was not an off-

The officers made no arrests.

in Second street very ill. The gentle-
man was somewhat better this morning,
but is still unable to leave his bed.

was buried from the family residence on
College street yesterday afternoon at 2
o'clock. The interment took place in
Riverview. Rev. O. S. Reed officiated.

at the freight depot, has resigned his
position with the Armour company in
Pittsburg, and secured a situation in the
office of the Apollo Iron and Steel com-
pany.

the little town is showing a very pro-
gressive spirit, and was certainly boom-

ington, had died Saturday from an at-

The option, taken on the Metcalf prop-
erty by some individual whose name is
not given to the public, expires one week
from today. Mr. Metcalf said today he
had heard nothing from the man since
he left town.

deal of suffering along the Ohio, but the
water has fallen, so that much of the
district submerged is now dry. All boats
could pass under the bridges at Cincin-
nati this morning.

The new Mumford stilt works will
be placed in operation about the mid-
dle of the month. The new engine
will be placed in position this week, and
the work of repairing and remodeling

A meeting of the official board of the
Christian church will be held this even-
ing at 7:30 in the Association auditorium
to consider several sites for the erection
of a new church. Several options have
been secured, and definite action will be
taken.

Very little money has yet been laid
on Corbett and Fitzsimmons in this city,
but a well known potter, who is some-
what interested in matters of that sort,
gave as his opinion that next week
would see a general awakening of the
sports.

Lent will begin Wednesday morning,
and at mass at 8:30 o'clock at St.
Aloysius church the ashes will be dis-
tributed. Devotional exercises will be
held every Wednesday and Friday even-
ing in the church during Lent, which
closes April 18.

The attendance at the afternoon meet-
ing of the Young Men's Christian As-
sociation yesterday was large, and an
excellent service was the result. Re-
ports of the Springfield convention were
given by Homer Morris, A. H. Bulger
and F. H. Croxall.

After the snow fell last night the
streets were very slippery, and many
people went down. When the churches
poured their crowds into the streets it
was more slippery than ever, and
several persons were down on the pave-
ment at one time at Fifth and Market
streets.

It is whispered around that the Demo-
crats propose to make a hard fight for
council, and at the right time will have
a full ticket. A leader informed a re-
porter that he knew they could carry a
few wards, and there were prospects of
carrying them all, but he failed to say
how it was to be done.

WASHINGTON IS GAY.

The City Putting On Inaug-

MAJ. MCKINLEY'S FINE QUARTERS.

An Elegant Suite at the Ebbitt House
Arranged for the President-Elect and

WASHINGTON, March 1.—Inaugural

the past twenty-four hours the crowds
have begun to show themselves notice-

but a well known potter, who is some-
what interested in matters of that sort,
gave as his opinion that next week
would see a general awakening of the
sports.

The attendance at the afternoon meet-
ing of the Young Men's Christian As-
sociation yesterday was large, and an
excellent service was the result. Re-
ports of the Springfield convention were
given by Homer Morris, A. H. Bulger
and F. H. Croxall.

After the snow fell last night the
streets were very slippery, and many
people went down. When the churches
poured their crowds into the streets it
was more slippery than ever, and
several persons were down on the pave-
ment at one time at Fifth and Market
streets.

It is whispered around that the Dem-
ocrats propose to make a hard fight for
council, and at the right time will have
a full ticket. A leader informed a re-
porter that he knew they could carry a
few wards, and there were prospects of
carrying them all, but he failed to say
how it was to be done.

vexed question.

NO PARDON THIS TIME

John Kirchner Was Refused
His Liberty.

BOARD THINKS HE SHOULD STAY

Until He Has Filled the Sentence Imposed
by the Court—He Shot His Wife, Was
Soon After Indicted and Sent Within a
Short Time to the Pen.

The friends of John Kirchner will be
pained to hear that the board of pardons
did not look with favor upon their ap-
plication for his release, and he will be
kept in the penitentiary at Columbus
until the sentence imposed by Judge
Smith is at an end.

Kirchner, it will be readily remem-
bered by those who have followed the
case, lived with his wife in West End.
He was credited with being a man of
good sense when sober, but when he be-
came intoxicated was not the most agree-
able of companions. One night
last spring he became very angry at his
wife and shot her. He was arrested and
sent to Lisbon where the grand jury
soon disposed of his case. The trial
was set for a few weeks later, and in a
short time he was in the penitentiary.

A few months ago his wife learned
that he was in poor health, and im-
mediately took steps to secure his release.
A petition was circulated and liberally
signed, and sent to the board of pardons.
They considered the case, but made no
report. At the meeting last
Saturday it was again considered, and
the board rejected the application.
Kirchner was sentenced to two years in
the penitentiary.

THE MEMBERSHIP CONCERT.

The Committee This Morning Selected the
Prizes.

Doctor Beane, Charley Bence and C.
L. Gray, the committee appointed to se-
lect prizes for the winners of the asso-
ciation membership contest, held a meet-
ing this morning. It was decided to
give the winner a \$10 gold piece or
merchandise to that amount, while the
second and third will receive full mem-
bership tickets. The contest closes the
evening of March 31, and on April 1 a
banquet will be served. All the mem-
bers are expected to be present, and
there will be speeches and music. The
membership list today is at the 150
mark.

NOW A STOCK COMPANY.

The Pottery People at Rogers Take Out a
Charter.

The people interested in the Rogers
pottery have formed a stock company,
and were on Saturday granted a charter
by the secretary of state. The capital
stock is \$15,000. The pottery has been
doing more than its share of business,
and has many orders on hand. It will
be known as the Quaker Valley Pottery
Co.

The story that a movement is on foot
to place the Toronto pottery in operation
will not down. It was stated today that
several East Liverpool potters were in-
terested.

A GENUINE TREAT.

character in the land, and they come

WATER IN THE WELL.

Liverpool Oil Men Are Experiencing
Trouble at Darlington.

The local capitalists who have been
drilling for oil at Darlington have ex-
perienced no little bad luck, and even
now have a well full of water. Thou-
sands of gallons of water have been
pumped since the well was drilled, and
at times the stream was so strong that it
gushed with great force out of the seven
inch casing. Every effort to shut off the
water has been met by defeat, but the
company have not yet given up hope of
saving the well. They have a big block
of land in that vicinity, and are giving
it a thorough test.

A WELLSVILLE COUNCILMAN

Will Resign His Place in the Government
Tonight.

More than the usual amount of busi-
ness will be transacted by Wellsville
council tonight. The petition asking
that the run be cleaned will again be
presented, and the board of health will
likely act in the matter. If something
is not done the state board will be called
in.

Another matter, which by the way is
not generally known, will be the resig-
nation of a councilman. The letter has
been in the possession of Clerk Davidson
for some time.

Will Be a Nurse.

GOING TO WASHINGTON.

One Company of the Eighth Secured a
Low Rate.

When it became certain that the
Eighth would not go to Washington be-
cause the rate offered by the railroad
companies was beyond its reach, Cap-
tain Weybrecht, of Alliance, made a
strong effort to secure for his soldiers
what the others could not get. He suc-
ceeded last Saturday afternoon, and it
is now understood that Company K will
be in line next Thursday. The company
will pay \$10 per man, which includes
sleeping car accommodations.

CHIEF ATTRACTIONS

Which Go to Make "Darkest America" a
Good Performance.

An old-fashioned husking bee and
possum hunt; an old Virginia reel; a
pathetic parting of master and servant;
slaves made free by the proclamation of
freedom, leaving the old plantation and
a happy home to go out into a new
world; the battle of life to begin anew
under conditions unknown and untold.
Such is a brief epitome of the first act of
"Darkest America," which will be the
attraction at the Grand tonight.

MUCH BETTER.

Doctor Laughlin Is Rapidly Getting
Well.

Dr. W. T. Norris this morning received
a letter from H. C. Eymann, superintend-
ent of the state hospital at Cleveland. Mr.
Eymann states Doctor Laughlin is placed
in one of their best wards, and has been
doing very nicely since being received.
He has been giving them no trouble,
eats and sleeps well, takes a walk every
day, and they are confident of his speedy
recovery.

STOLE STOCKINGS.

But a Customer Happened to See the
Happening.

Saturday evening J. W. Harris walked
into a dry goods store, and noticed a
small boy acting in a suspicious manner.
The lad was watched, and was finally
seen to place a pair of stockings in his
pocket. The young man caught the boy
by the collar and turned him over to the
proprietor, who made him return the
goods. He then administered a severe
lecture.

ris, ex-secretary of the Young Men's

Will advises all his friends to hear them

JOHN WICK JR.

He Is a Quay Man From Start to
Finish.

A Pittsburg paper publishes an excel-
lent picture of John Wick, Jr., the Kit-
tanning potter so well known in this
city, and among other things says:
"In politics Mr. Wick has always
been an unswerving Republican. He
has been county committeeman from the
Second ward of Kittanning for years,
and was one of the conferees of Hon.
D. B. Heiner in his long-drawn-out con-
test with Colonel Huff, of Westmoreland
county. Mr. Wick is a great admirer of
Senator Quay, and is always with that
faction of the Republican party. His
brother, Ered Wick, another self-made
business man, is prominently mentioned
as the Republican candidate for sheriff
of Armstrong county this spring."

Man and the Mammoth.

A remarkable discovery was made a
few years ago in the sandstone rock at
the Nevada state prison. The "find"
was considered wonderful not only from
an ethnological point of view also.
While the convicts at the institution
were unearthing some huge blocks of
stone they uncovered some peculiar in-
dentations in one of the slabs. Closer
investigation proved that these queer
marks were the tracks of some gigantic
beast of antediluvian time—perhaps a
mastodon or a mammoth. When the
startling intelligence was announced to
the prison officials, they had the sand-
stone slabs containing the tracks care-
fully cleaned, whereupon another won-
derful discovery was made. In the same
pieces of stone, sometimes at the side
and sometimes between the tracks, made
by the great prehistoric beast, were a
series of human footprints, which proved
conclusively that man and the mammoth
lived not only at the same time and in
the same age, but that the huge beast
and the man had passed that way dur-
ing the same year, and perhaps on the
same day. These wonderful relics of a
bygone age were found in a quarry at a
depth of about 15 feet from the surface
and had previously been covered with a
stratum composed of hundreds of tons
of stone—the accumulation of the ages
that had intervened between the date
upon which the tracks were made and
that upon which they were revealed to
the scientists. Expert geologists who
have since passed an opinion on the
matter say that at the time the tracks
were made that which is now hard
sandstone was a mucky deposit of soft
sediment, probably the border of a lake,
where the man had been fishing, and
where the mammoth had come to bathe
or drink.—St. Louis Republic.

A Wonderful Bird.

One day a wonderful bird tapped at
the window of Mrs. Nansen's home at
Christiania. Instantly the window was
opened, and the wife of the famous ar-
ctic explorer in another moment covered
the little messenger with kisses and
caresses. The carrier pigeon had been
away from the cottage 30 long months,
but it had not forgotten the way home.
It brought a note from Nansen, stating
that all was going well with him and
his expedition in the polar regions.
Nansen had fastened a message to a
carrier pigeon and turned the bird loose.
The frail courier darted out into the
blizzard air. It flew like an arrow
over 1,000 miles of frozen waste and
then sped forward over another 1,000
miles of ocean and plains and forests
and one morning entered the window of
the waiting mistress and delivered the
message which she had been awaiting
so anxiously. We boast of human pluck,
sagacity and endurance, but this loving
little carrier pigeon, in its homeward
flight, after an absence of 30 months,
accomplished a feat so wonderful that
we can only give ourselves up to the
amazement and admiration which must
overwhelm every one who when the mar-
velous story is told. Mrs Nansen's pigeon
is one of the wonders of the world.—
Churchman.

Why Europeans Are Safe Among Turks.

The explanation of the safety of Eu-
ropeans among these fellows, even where
the police were absent, is probably to be
found in the tentative character of the
Turk's violations of right and of law.
In doing what is wrong he always be-
gins an abject cower, gaining courage
with impunity. The mere fact that a
European would walk straight through a
crowd of the beldog men, jostling
against them in an unconcerned manner,
convinced them that for some reason he
was not a safe man to attack. In some
cases Armenians walked safely through
the mobs on the street simply by push-
ing their way with a determined air.
In every case where an Armenian ran from
them, or even hesitated on meeting them,
his only chance of life was gone.
The tentative character of Turkish ag-
gressions is not sufficiently borne in
mind. At the beginning of a wrong even
a sultan will draw back when he sees that
his course is resented by one whom he
knows to have the right and believes to
have the force to do so.—Yvan Troschine
in Scribner's.

That Cooking Club.

In mentioning the fact that East Liv-
erpool and Wellsville girls are forming
a cooking club the Union says:

"Wellsville girls are already famous
cooks and it is hard to understand what
they want to take lessons in that art
for. Perhaps they have charitable un-
dertaken to teach the Liverpool girls
how to cook, however. That would be
a good Samaritan act."
No indeed. It seems they have both
decided to bring in a little outside talent.

Going to Washington.

Captain William Brant left this morn-
ing for Washington, and Colonel and
Mrs. Taylor and W. L. Smith go this
afternoon.

CONSUMPTION.

The Conditions Which Invite a Foothold
of This Dread Disease.

The germs of this disease cannot ob-
tain a foothold until the resistive pow-
ers of the tissues have been reduced.
There must be not only the seed, but the
soil. This impaired power of resistance
may be the result of heredity, and this
influence in the causation of disease is
seldom shown to better advantage than
in the history of consumption. There
have been instances in which a single
case introduced into a long and sound
ancestry has vitiated the stock forever.

How unfortunate that such matters
are so little considered in marrying and
giving in marriage! It is not that the
disease is inherited, but the vulnerable
tissues, the feeble resistive powers, ren-
der the offspring an easy prey to the
ubiquitous bacillus. This weakness often
shows itself by a tendency to become ill
from slight causes, a sickness not by
any means to be confounded with merely
a lack of robustness or strength. One
organ or part of the body, frequently
the mucous membrane, is usually more
prone to become affected, and the begin-
ning of the disease can often be traced
to an attack of some slight ailment.

Not only the children of consumptive
parents may show these characteristics,
but also those of parents generally en-
feebled, or whose ages are widely sepa-
rated, or who are closely related by blood,
or of a mother who has previously borne
a number in quick succession. Even
when heredity is sound the same condi-
tion is sometimes induced by coughing,
by improper feeding, by attacks of acute
disease or by want and distress. In
growing children a bad carriage of body
may act injuriously by contracting and
deforming the chest. The stooped posi-
tion which boys sometimes assume in
bicycle riding should be discouraged for
this reason.—William L. Russell, M.
D., in Popular Science Monthly.

THE LONGFELLOW STATUE.

A Fitting Memorial of the Poet at Port-
land, His Birthplace.

One of the best instances of what the
statue of any great man should be—at
any rate, in the respect of its situation,
its perspective with regard to other me-
morials and the local estimation in
which it is held—is the statue of Long-
fellow at Portland, by Mr. Franklin
Simmons. It is a dignified seated figure
of the poet in bronze, occupying a con-
spicuous site in the best part of the
town, in the middle of a square which
is now known as Longfellow square.
The statue was raised a few years ago
by a fund solicited through a wide field,
but chiefly obtained, I believe, in Port-
land. The sculptor was chosen through
that curious local spirit which has af-
fected unfavorably many of our archi-
tectural and other monuments. He was
avowedly selected because he was a
"Maine man," though he had never
seen the poet. However, the result in
this case seems to have been happy. The
statue has much beauty, and the like-
ness is said to be excellent.

This statue stands in the poet's native
town, as is entirely proper. It may ap-
pear every day to the eyes of thousands
of young people, born very much as he
was born, who should see in it the sug-
gestion of possibility for them. Poeti-
cally it makes the stranger fancy the
genius or spirit of the man still linger-
ing among the scenes of his youth, and
it symbolizes the satisfaction which ev-
ery man feels to have his name remem-
bered in his native town.—J. E. Cham-
berlain in Atlantic.

The South Carolinian.

The South Carolinian has always ar-
rogated to himself the name Carolinian,
and he has never been on very familiar
terms with his northern neighbor. His
feeling for his southern neighbor, the
Georgian, is also one of mere tolerance,
for the latter has long been called the
southern Yankee and fairly deserves the
appellation. He has much of the
shrewdness and push that mark the
typical "down easter," and he has a
considerable share of that worthy's
moral earnestness. In addition he has
a good deal of the Virginian's geniality
and love of comfort, of the North Car-
olinian's unpretending democracy and
of the South Carolinian's tendency to ex-
hibitions of fiery temper.

But over and above everything else he
has an honest and

NO PARDON THIS TIME

John Kirchner Was Refused
His Liberty.

BOARD THINKS HE SHOULD STAY

Until He Has Filled the Sentence Imposed
by the Court—He Shot His Wife, Was
Soon After Indicted and Sent Within a
Short Time to the Pen.

The friends of John Kirchner will be
pained to hear that the board of pardons
did not look with favor upon their ap-
plication for his release, and he will be
kept in the penitentiary at Columbus
until the sentence imposed by Judge
Smith is at an end.

Kirchner, it will be readily remem-
bered by those who have followed the
case, lived with his wife in West End,
he was credited with being a man of
good sense when sober, but when he be-
came intoxicated was not the most
agreeable of companions. One night
last spring he became very angry at his
wife and shot her. He was arrested and
sent to Lisbon where the grand jury
soon disposed of his case. The trial
was set for a few weeks later, and in a
short time he was in the penitentiary.

A few months ago his wife learned
that he was in poor health, and im-
mediately took steps to secure his release.
A petition was circulated and liberally
signed, and sent to the board of pardons.
They considered the case, but made no
report. At the meeting last Saturday
it was again considered, and the board
rejected the application. Kirchner was
sentenced to two years in the penitentiary.

THE MEMBERSHIP CONCERT.

The Committee This Morning Selected the
Prizes.

Doctor Benne, Charley Benne and C.
L. Gray, the committee appointed to se-
lect prizes for the winners of the asso-
ciation membership contest, held a meet-
ing this morning. It was decided to
give the winner a \$10 gold piece or
merchandise to that amount, while the
second and third will receive full mem-
bership tickets. The contest closed the
evening of March 31, and on April 1 a
banquet will be served. All the mem-
bers are expected to be present, and
there will be speeches and music. The
membership list today is at the 159
mark.

NOW A STOCK COMPANY.

The Pottery People at Rogers Take Out a

The people interested in the Rogers
pottery have formed a stock company,
and were on Saturday granted a charter
by the secretary of state. The capital
stock is \$15,000. The pottery has been
doing more than its share of business,
and has many orders on hand. It will
be known as the Quaker Valley Pottery
Co.

The story that a movement is on foot
to place the Toronto pottery in operation
will not down. It was stated today that
several East Liverpool potters were in-
terested.

WATER IN THE WELL.

Liverpool Oil Men Are Experiencing
Trouble at Darlington.

The local capitalists who have been
drilling for oil at Darlington have ex-
perienced no little bad luck, and even
now have a well full of water. Thous-
ands of gallons of water have been
pumped since the well was drilled, and
at times the stream was so strong that it
gushed with great force out of the seven
inch casing. Every effort to shut off the
water has been met by defeat, but the
company have not yet given up hope of
saving the well. They have a big block
of land in that vicinity, and are giving
it a thorough test.

A WELLSVILLE COUNCILMAN

Will Resign His Place in the Government
Tonight.

More than the usual amount of busi-
ness will be transacted by Wellsville
council tonight. The petition asking
that the run be cleaned will again be
presented, and the board of health will
likely act in the matter. If something is
not done the state board will be called
in.

Another matter, which by the way is
not generally known, will be the resig-
nation of a councilman. The letter has
been in the possession of Clerk Davidson
for some time.

GOING TO WASHINGTON.

One Company of the Eighth Secured a
Low Rate.

When it became certain that the
Eighth would not go to Washington be-
cause the rate offered by the railroad
companies was beyond its reach, Cap-
tain Weybrecht, of Alliance, made a
strong effort to secure for his soldiers
what the others could not get. He suc-
ceeded last Saturday afternoon, and it
is now understood that Company K will
be in line next Thursday. The company
will pay \$10 per man, which includes
sleeping car accommodations.

CHIEF ATTRACTIONS

Which Go to Make "Darkest America" a
Good Performance.

An old-fashioned hussling bee and
possum hunt; an old Virginia reel; a
pathetic parting of master and servant;
slaves made free by the proclamation of
freedom, leaving the old plantation and
happy home to go out into a new world;
the battle of life to begin anew under
conditions unknown and untried. Such
is a brief epitome of the first act of
"Darkest America," which will be the
attraction at the Grand tonight.

MUCH BETTER.

Doctor Laughlin Is Rapidly Getting
Well.

Dr. W. T. Norris this morning received

He has been giving them no trouble,
eats and sleeps well, takes a walk every
day, and they are confident of his speedy
recovery.

STOLE STOCKINGS.

But a Customer Happened to See the
Happening.

Saturday evening J. W. Harris walked
into a dry goods store, and noticed a
small boy acting in a suspicious manner.
The lad was watched, and was finally
seen to place a pair of stockings in his
pocket. The young man caught the boy
by the collar and turned him over to the
proprietor, who made him return the
goods. He then administered a severe
lecture.

has been county Kittenman for years,
and was one of the conferees of Hon.
D. B. Heiner in his long-drawn-out con-
test with Colonel Huff, of Westmorland
county. Mr. Wick is a great admirer of
Senator Quay, and is always with that
faction of the Republican party. His
brother, Ered Wick, another self-made
business man, is prominently mentioned
as the Republican candidate for sheriff
of Armstrong county this spring."

Man and the Mammoth.

A remarkable discovery was made a
few years ago in the sandstone rock at
the Nevada state prison. The "find"
was considered wonderful not only
from a geological standpoint, but from
an ethnological point of view also.
While the convicts at the institution
were unearthing some huge blocks of
stone they uncovered some peculiar in-
dentations in one of the slabs. Closer
investigation proved that these queer
marks were the tracks of some gigantic
beast of antediluvian time—perhaps a
mastodon or a mammoth. When the
startling intelligence was announced to
the prison officials, they had the sand-
stone slabs containing the tracks care-
fully cleaned, whereupon another won-
derful discovery was made. In the same
pieces of stone, sometimes at the side
and sometimes between the tracks, made
by the great prehistoric beast, were a
series of human footprints, which proved
conclusively that man and the mammoth
lived not only at the same time and in
the same age, but that the huge beast
and the man had passed that way dur-
ing the same year, and perhaps on the
same day. These wonderful relics of a
bygone age were found in a quarry at a
depth of about 15 feet from the surface
and had previously been covered with a
stratum composed of hundreds of tons
of stone—the accumulation of the ages
that had intervened between the date
upon which the tracks were made and
that upon which they were revealed to
the scientists. Expert geologists who
have since passed an opinion on the
matter say that at the time the tracks
were made that which is now hard
sandstone was a mucky deposit of soft
sediment, probably the border of a lake,
where the man had been fishing, and
where the mammoth had come to bathe
or drink.—St. Louis Republic.

A Wonderful Bird.

One day a wonderful bird tapped at
the window of Mrs. Nansen's home at
Christiana. Instantly the window was
opened, and the wife of the famous ar-
ctic explorer in another moment covered
the little messenger with kisses and
caresses. The carrier pigeon had been
away from the cottage 30 long months,
but it had not forgotten the way home.
It brought a note from Nansen, stating
that all was going well with him and
his expedition in the polar regions.
Nansen had fastened a message to a
carrier pigeon and turned the bird loose.
The frail courier darted out into the
blizzard air. It flew like an arrow
over 1,000 miles of frozen waste and
then sped forward over another 1,000
miles of ocean and plains and forests
and one morning entered the window of
the waiting mistress and delivered the
message which she had been awaiting
so anxiously. We boast of human pluck,
sagacity and endurance, but this loving
little carrier pigeon, in its 30-month
flight, accomplished a feat so wonderful
that we can only give ourselves up to the
amazement and admiration which must
overwhelm every one when the marvel-
ous story is told. Mrs. Nansen's pigeon
is one of the wonders of the world.—

Why Europeans Are Safe Among Turks.

The explanation of the safety of Eu-
ropeans among these fellows, even where
the police were absent, is probably to be
found in the tentative character of the
Turk's violations of right and of law.
In doing what is wrong he always be-
gins an abject coward, gaining courage
with impunity. The mere fact that a
European would walk straight through a
crowd of the budgeoned men, jostling
against them in an unconcerned manner,
convinced them that for some reason he
was not a safe man to attack. In some
cases Armenians walked safely through
the mobs on the street simply by push-
ing their way with a determined air. In
every case where an Armenian ran from
them, or even hesitated on meeting
them, his only chance of life was gone.
The tentative character of Turkish ag-
gressions is not sufficiently borne in
mind. At the beginning of a wrong even
a sultan will draw back when he sees that
his course is resented by one whom he
knows to have the right and believes to
have the force to do so.—Yvan Troshine
in Scribner's.

That Cooking Club.

In mentioning the fact that East Liv-
erpool and Wellsville girls are forming
a cooking club the Union says:

"Wellsville girls are already famous
cooks and it is hard to understand what
they want to take lessons in that art
for. Perhaps they have charitably un-
dertaken to teach the Liverpool girls
how to cook, however. That would be
a good Samaritan act."

No indeed. It seems they have both
decided to bring in a little outside talent.

Going to Washington.

THE LONGFELLOW STATUE.

A Fitting Memorial of the Poet at Port-
land, His Birthplace.

One of the best instances of what the
statue of any great man should be—at
any rate, in the respect of its situation,
its perspective with regard to other mem-
orials and the local estimation in
which it is held—is the statue of Long-
fellow at Portland, by seated Franklin

The South Carolinian has always ar-
rogated to himself the name Carolinian,
and he has never been on very familiar

for the latter has long been called the
